

# DAILY REJUVENATION & *protection*

## LUMINESCE™ daily moisturising complex

is a powerful anti-wrinkle moisturiser with sunscreen that helps reduce the appearance of fine lines and wrinkles by stimulating the skin's natural ability to rehydrate. This brilliant facial cream transforms your skin by infusing even the deepest layers with essential hydration, giving your face a more healthy, smooth and youthful appearance. LUMINESCE™ daily moisturising complex contains an exclusive patent-pending formula that gently encourages your body's natural processes to produce more proteins like collagen and elastin, helping you reveal a renewed complexion.

Your skin is a precious resource, and safeguarding it is vital to maintaining a younger-looking, more radiant you. Prolonged exposure to the sun's seductive rays and other potentially harmful elements can severely damage your skin and speed up the ageing process. That's why it's important you use LUMINESCE™ daily moisturising complex's intense facial hydration with sunscreen to protect, nourish and restore where you need it most.

## LUMINESCE™ daily moisturising complex

uses a combination of premium ingredients carefully selected for their highly effective anti-ageing and hydrating properties. This non-greasy moisturiser absorbs instantly upon application, and when used daily, can provide serious benefits for both men and women. The perfect solution to your skin care needs, LUMINESCE™ daily moisturising complex dramatically improves your appearance by helping you rehydrate, refresh and rejuvenate your skin.
