

EXPERIENCE
what it's like to
be flawless.

Experience what it's like to be flawless.

Instantly Ageless™ is a powerful anti-wrinkle microcream that works quickly and effectively to diminish the visible signs of ageing. Instantly Ageless™ revives the skin and minimises the appearance of fine lines and pores for a flawless finish.

A perfect day starts with perfect skin.

Meticulously developed, our formula is lightweight and contains a skin-conditioning complex of minerals that smooths skin. Instantly Ageless™ immediately dissolves into the skin, reducing the appearance of wrinkles. It's specifically designed to target areas that have lost elasticity—revealing visibly toned, lifted skin. Users have seen dramatic results in seconds.

Watch fine lines vanish.* A compact, yet powerful alternative to fortify skin affected by free radicals and environmental damage, Instantly Ageless™ is at the forefront of anti-ageing technology.

Stop waiting for results—live flawless with Instantly Ageless™.

BE YOU. BE FLAWLESS.

Instantly Ageless™ works synergistically with the LUMINESCE™ line of products to visibly reduce the signs of ageing. Developed exclusively by Jeunesse®.

ACTIVE INGREDIENTS

DIRECTIONS FOR USE

Lightly pat a very thin layer to targeted areas; leave damp on skin and remain expressionless for 2-3 minutes while product dries to achieve dramatic results. Use as directed and avoid contact with eyes. If product gets into eyes, flush with water. Discontinue use if redness or irritation occurs. Consult with your physician if you are allergic to cosmetics.

*Results are not permanent

ARGIRELINE

is widely known to produce significant results in anti-ageing. It's a peptide that works like Botox® in the treatment of fine lines and wrinkles. Though Argireline is one of the most widely recognised anti-ageing treatments, not all formulas may work because a precise composition of Argireline is needed to achieve maximum results. Developing the right formula is a perfect science.

SODIUM & MAGNESIUM ALUMINUM SILICATE

is an exclusive blend of two different silicates which, when combined, promote a tightening effect on the skin. These silicates retract skin so pores appear smaller and wrinkles look lifted.
